

Appropriations Subcommittee

Energy and Water

Requesting Organization

City of Oakdale

1584 Hadley Avenue North

Oakdale, MN 55128

Purpose of Request

Funding would be used to enhance the energy efficiency of the City of Oakdale's public works facilities. With the requested funding, the city will install a new geothermal heat pump system, which would use water from an existing nearby water filtration facility to heat and cool the Public Works facility. The City will also replace existing high-pressure sodium parking lot lamps located at the City of Oakdale's City Hall and Public Works facilities with light-emitting diode (LED) lamps.

Amount Requested

\$500,000
